Subject: Lawsuit Against EPA Story

Mornin' –

Here's a Laura Lundquist story out of the Bozeman Chronicle on the Upper Missouri Waterkeepers filing a notice of intent to sue the EPA over our numeric nutrient standards.

http://www.bozemandailychronicle.com/news/environment/lawsuit-to-sue-epa-over-montana-water-quality-rule/article_ca808a2e-8586-11e4-9a58-d3b2f9f10a78.html?utm_medium=desktop&utm_source=block_937344&utm_campaign=blox

Seems as though the variance portion is what is so contentious, as well as the EPA allowing the time limits to slip. Although we are central to the story, no quotes or notice that she contacted anyone in our shop.

I'll see if I can get a hard copy up.

Paul D
